Software Developer with a strong frontend focus, building and shipping scalable mobile and web applications in production environments.

Specialised in **React Native (Expo)** and **Next.js**, with hands-on experience integrating backend services using **Node.js**, **FastAPI**, and **AWS**, and working with relational databases.

I work end-to-end on features — from UI architecture, state management, and performance optimisation to backend integration, deployment, and app store releases. I collaborate closely with product, design, and backend teams to deliver stable, high-quality solutions with a strong focus on user experience.
